Assignment-4

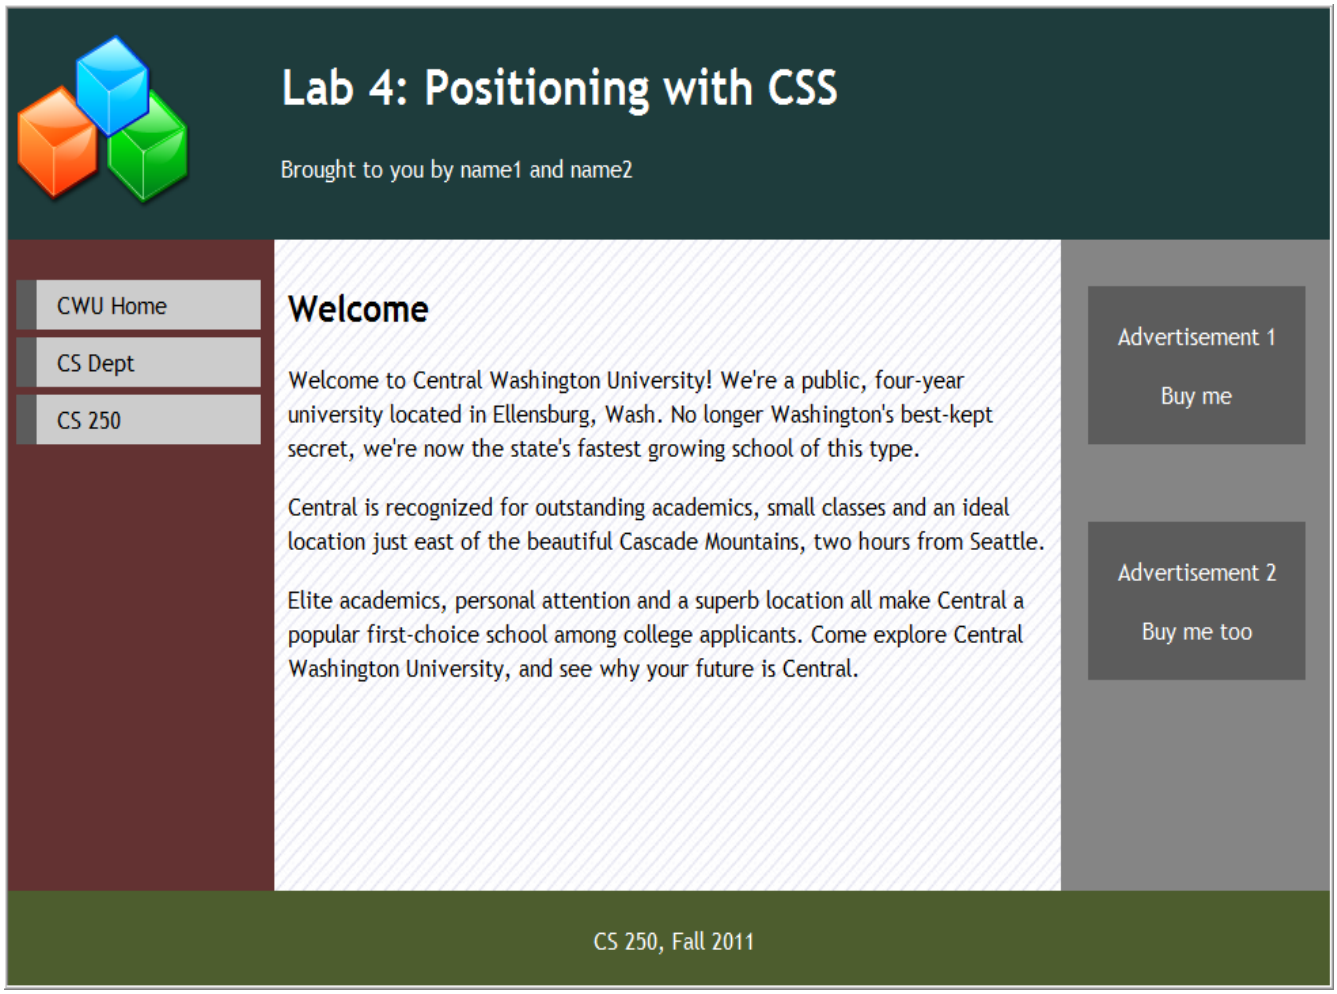
1. Create a webpage with following requirements
   1.1 5 paragraphs of different width and font size and color
   1.2 Centering 2nd and 3rd paragraph using CSS only.
   1.3 CSS must be defined in style.css file only

2. Create a table as shown below:

Rownum	*Common name*
1	Allen's Hummingbird
2	Blee Hummingbird
3	Black-chinned Hummingbird
4	Broad-tailed Hummingbird
5	Calliope Hummingbird
6	Costa's Hummingbird
7	Flammulated Owl
8	Ruby-throated Hummingbird
9	Rufous Hummingbird

- It should link to a cascading stylesheet **present.css** that you have written. This style sheet should do the following things:
  • set all of the text to helvetica or san serif;
  • set the top level headings to 20 point bold and dark grey;
  • set tables so that they have a background:
    – no background for the header row
    – shaded in light grey for even rows;
    – shaded in light blue for odd rows;
  • set table header text to italic, while the other contents of the table are in normal (roman).
  • set the lower and upper limits of the range to bold and bright blue;
  • align the tables in the horizontal centre of the page;

3. Create the web page shown below with a **top** banner section, **3 columns**, and a **bottom** footer section



Use div to divide page into **five** sections:

3.1 **top banner** area
3.2 **left navigation** area
3.3 **right advertisement** area
3.4 **center main content** area
3.5 **bottom footer** area

- Use CSS style rules for giving look and feel of page as shown in figure.
- The page use the following color scheme:

#1E3C3C	#4D5D2E	#633232	#FFFFFF	#858585	#5C5C5C	#CCCCCC
top banner area	bottom footer area	left navigation area	center main content area	right advertisement area	advertisement box & navigation link left border	navigation link background color

- All text on the page is formatted using the sans-serif font family, either white or black, and kept at its default size and font weight.
- Headings and paragraphs are used to contain the text. Margins and paddings are used to add vertical and/or horizontal space between elements. Do **not** use **
** elements to add vertical spacing.
